

Description of sample: This is website content I wrote for a client who owned and operated a construction and demolition company in Garland, TX. The client hired my team to design and build a fully optimized website. They wanted to reach residential and commercial customers alike.

I produced location- and keyword-targeted SEO content for every page of the website: Home, About Us, and 15 unique service pages. Accomplishing this required extensive industry research and efficient synthesis of information.

Below, you can see my web content for the following pages: Kitchen Remodeling, Demolition Contractor, Tenant Improvement Contractor, and Hotel and Restaurant Contractor.
